User Research	Digital Design	Android Applications
User Experience Research	Motion Graphics	PHP, JAVA, PYTHON, RUBY, Objective-C / Swift, C, C++, C#, JAVASCRIPT
Product Launch Strategy	Print Design	
	Environmental Design	

clients

We jump at opportunities to solve intriguing problems, whether it's creating an engaging experience, reinventing a brand, launching a new product or coming up with an innovative application.

why choose us?

We are versatile and practical:

We have designed for a variety of mediums, including Web and Mobile design experiences for top organizations such as the Unga Group Limited, Nestle, Nation Media Group Limited, Koffi Annan Foundation, Kenya Red Cross, BC Centre for Disease Control and many others. As a result, we understand how to design virtual experiences that work in many contexts. In addition to our digital experiences expertise, we also offer many skills, such as branding, Android and IOS applications development and usability that traditional design firms cannot provide.

What you see is what you get:

Our most experienced and award-winning designers, writers and project managers will be working on your project from start to finish.

We treat clients as valued partners during the design process:

As your multimedia consultants, we will always recommend the best practices to you however; we also understand that many factors can affect design and we can work within those constraints

our story

We may be best described as a creative communications agency, with our genes firmly imprinted in our digital DNA; but the truth is we have been helping organizations grow across all areas of their businesses through innovative design for more than 10 years.

With an interdisciplinary team of 5 thinkers, creators and executors, we work with a wide range of clients to deliver connected experiences spanning multiple technologies, platforms, and media, creating positive business impact.

The success of our innovations, and passion for excellence, can be found in all sectors of the economy both locally and globally, affecting how people interact with each other and their environment.

Our Mission:

Think Smart, Design & Develop meaningful products and services that will continue to make our lives easier, more prosperous, and more enlightened.

Our Vision:

Inspire and touch people through innovative technology and creative design.

Our Core Business Values:

We do what we say.

We do it with integrity.

We put our heart and passion to it.

We keep it simple, usable and accessible
